

“Supporting health promoters to foster healthy people and communities.”

Call for Input - Survey on Transit Needs

Over the years, in meeting with members of Community Links the issue of lack of transportation options for seniors has continually been raised. This is why with the support of the board of Community Links I have been an active member of the Board of Community Transit - Nova Scotia Community Based Transportation Association (CT-NS). In my role as Past Chair of CT-NS I am currently chairing a Task Force which is working on a discussion document to engage the province in the development of a provincial community transit strategy. Such a strategy would help address not only seniors needs but those of any Nova Scotia who is transportation disadvantaged. **WE NEED YOUR HELP!** Please fill in a brief survey on this issue by clicking on the link to the CT-NS website.
